DETAILED ACTION

Allowable Subject Matter

Claims 1, 3 - 6, and 14 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 1, the prior art does not disclose the use of computing first and second timing marks and determining whether the duration of the synthesis wave form is greater than the duration of an analysis waveform and performing modification based on pitch and duration. Regarding claim 3, the prior art does not disclose the use of synthesizing a wave form comprising the steps of calculating a set of samples for a period m using a first cosinous window, calculating a set of sample for a period m-1 using a second cosinous window, and combining the set of samples for period m and the set of samples for period m-1 using a weighting function. Regarding claim 6, the prior art does not disclose the use of calculating samples for each period of the synthesis waveform defined by adjacent second timing marks using samples selected from a corresponding period of the analysis waveform defined by adjacent first timing marks to form the synthesis waveform having the second pitch, the second duration, a second attack portion, and a second decay portion (wherein both first and second timing marks are computed as claimed).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David S. Warren whose telephone number is 571-272-2076. The examiner can normally be reached on M-F, 9:30 A.M. to 6:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2800 ext 37. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
